## STEVIE'S PLACE

Stevie's Place Child Advocacy Center (CAC) is designed as a child-friendly, neutral setting that provides children who may have experienced maltreatment and their non-offending family members support and advocacy during investigations.

## FAMILY SERVICES

Our services include free parenting classes as well as a Family Support program offering in home, in office, or online support services for parents. During weekly visits, family support service workers provide information on child development, parenting education, community resource opportunities, and service coordination.

## CHESTFEEDING PROGRAM

Parents may be eligible to receive or borrow an electric pump to support chestfeeding and increase milk supply through critical periods. Ongoing chestfeeding education is available to all.

## BEHAVIORAL HEALTH

RCPC's Behavioral Health program specializes in evidence-based practices. Our masters level clinicians offer a variety of trauma treatment modalities to help children and families heal from trauma.
